

Four GONGS for WUHAN

CHOHW July 5th

Wuhan has been a familiar word to us for many years because of the city's hand-made gongs and cymbals, which we often used in events, referring to them as Wuhans. They appeared in several of our scores as the word WUHAN in amongst breath and sirens, thunder drums and skulls, hooters and cannons, dark and welder, frogs and thunder sheets, fire extinguisher and strobes, harmonica balloons and goat bells. On July 5th at the exact moment of each of the full Thunder moon, the Dark moon, the sunset and the low tide, Wuhans will be gonged and we'll toast each of these sun and moon actions and interactions. Anne Bean & Richard Wilson

The date of this event coincides with the source of Covid 19 having been traced to Wuhan.
